Data provided by the U.S. Department of Transportation agencies, the U.S. Army Corps of Engineers, and the National Park Service, and are current as of 1998. Major airports are those that reported more than 250,000 enplanements in 1996. Major ports are those that handled more than 1 million tons of freight in 1995. Urban area with rail transit denotes urban areas with heavy or light rail transit.

Transportation Statistics Annual Report 1998 is a summary of the state of the nation's transportation system and the state of transportation statistics. This year's report includes an indepth discussion of long-distance passenger travel and freight activity.

The Bureau of Transportation Statistics (BTS), an operating administration of the U.S. Department of Transportation (DOT), is a national statistical agency, DOT's representative on the Federal Geographic Data Committee, and the home of the National Transportation Library. BTS compiles, analyzes, and makes accessible information about the nation's transportation systems; collects information on various aspects of transportation; and enhances the quality and effectiveness of the Department's statistical programs through research, the development of guidelines, and the promotion of improvements in data acquisition and use.
